TO: PARTIES ON THE ATTACHED SERVICE LIST

Re: In the Matter of the Provision of Basic Generation Service for the Period Beginning June 1, 2023 - Docket No. ER22030127

At its public agenda meeting held on February 8, 2023, the New Jersey Board of Public Utilities ("Board") certified and approved the results of the Residential and Small Commercial Pricing ("RSCP"), and Commercial and Industrial Energy Pricing ("CIEP"), Basic Generation Service ("BGS") Auctions for the State's four (4) electric distribution companies: Atlantic City Electric Company; Jersey Central Power & Light Company; Public Service Electric and Gas Company; and Rockland Electric Company (collectively, "EDCs") to satisfy supply requirements for their BGS customers for the period June 1, 2023 through May 31, 2024. The Board also directed the EDCs to: 1) execute the necessary documents with the winning bidders, including the BGS Supplier Master Agreements; 2) implement the BGS rates resulting from the Auctions beginning June 1, 2023; and 3) file revised tariff sheets reflecting the BGS rates resulting from the Auctions by April 10, 2023.

On April 7, 2023, the EDCs filed a letter with the Board requesting to delay the date they filed revised tariff sheets to April 24, 2023 as a result of an error found in PJM's final Reliability Pricing Model results for the 2023/2024 Delivery Year.

The EDCs submitted their compliance filings on April 19, 2023.

At its public agenda meeting held on May 24, 2023, the Board approved the compliance filings for the EDCs after finding them consistent with the Board's Order dated February 8, 2023. The EDCs should post the approved tariff sheets on their respective websites.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sherri L. Golden".

Sherri L. Golden  
Secretary
